

SPECIALISED PLANT AND MACHINERY OPERATIONS

It is important that the instructors/trainers/assessors read all the information provided in the Guidance Notes prior to commencing any instruction, training and/or assessment.

TRAINING OUTCOMES

A module credit will be awarded to the candidate for the successful completion of this module. Instruction, training and/or assessment of mandatory modules MOD 1 and MOD 2 must be undertaken and the CITB Health and Safety Test must be successfully completed (after appropriate training) for the issue of the Specialised Plant and Machinery Operations Intermediate Certificate for Forward Tipping Dumper.

Module ICT 09 Forward Tipping Dumper

Wheeled	(Endorsement A)
Tracked	(Endorsement B)

To successfully complete this module, the trainee with a forward tipping dumper must be able to:

1. Identify the basic construction, purpose and function of components and the purpose and use of all controls and gauges.
2. Identify and comply with manufacturers' instructions in accordance with the operator's handbook, other information sources and applicable legislation.
3. Carry out all pre-use and running checks.
4. Set the dumper for site and road travel.
5. Travel over differing types of terrain, including rough undulating ground, both in a loaded and unloaded state.
6. Travel up and down substantial inclines in a loaded and unloaded state.
7. Manoeuvre in confined areas using forward and reverse direction, in a loaded and unloaded state.
8. Position the dumper to receive loads.
9. Comply with loading procedures.
10. Ensure load integrity and security.
11. Discharge loads into trenches or over edges.
12. Place the dumper in an out-of-service condition.
13. Explain the loading and unloading procedures on and off a transporter.
